Increased wrapping speed of **up to 50%**

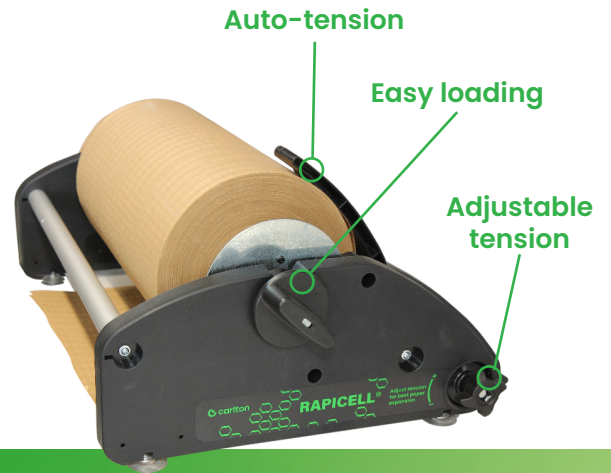

Packaging made smarter.

At Carlton, we are forward thinkers and innovators, developing sustainable packaging products that help our customers enforce further greener processes into their operation.

Protective

Rapicell is a sustainable alternative to bubble wrap that will keep your products securely in place with its interlocking design, without the need for tape. Dispensed from a compact manual dispenser, Rapicell™ can be easily used by every packer to achieve excellent product protection.

Rapicell at a glance

- Increased speed – Downtime kept at a minimum.
- Protective – Eliminate damage with exceptional protection.
- Environmental – 100% recyclable.
- Storage and efficiency – Storage space reduced by up to 80%.
- Cost-effective to transport – 1 truck of Rapicell is equivalent to 7.5 trucks of bubble wrap.

New Rapicell dispenser at a glance

- New and improved design.
- Robust, compact and lightweight.
- Auto-tension automatically adjusts to suit roll size.
- Adjustable tension for the best paper expansion.
- Easy loading for improved efficiency.

Carlton. Packaging made smarter.
