rapisac[®]

Rapisac[®] is our hanging mailing bag system for quick and easy filling.

Rapisac brings more than incremental benefits when you are filling mailing and courier bags. The bag hangs from its patented desk-edge mounted backplate to facilitate quick and easy filling.

Save 1hr
per 1000 bags

Packaging made smarter.

At Carlton, we are forward thinkers, developing innovations that set us apart.

Mailer

Rapisac is adaptable to suit all prints and sizes, and may also be used for clear polythene preparation bags. The bags come already fitted with the patented connection clips, ready to hang straight from the box!

At a glance

- Click & collect variations with handles
- Immediately accessible without taking up bench space
- Refills come with clips, ready to hang

Increased productivity

One handed opening and filling increases productivity significantly.

Safer way of working

No more bending and reaching across the pack bench needed due to Rapisac being able to be attached to the bench.

Carlton. Packaging made smarter.
